

Solutions for the Coatings Industry

The Univar Coatings Group is the premium supplier of resins, pigments, additives, solvents, fillers and general chemicals to the Paints and Inks market.

As you would expect from a market leader, we have a comprehensive offering of products and services, as well as a thorough understanding of the industries' needs, from both commercial and technical viewpoints.

Our Coatings team consists of a very professional staff with many years of experience in Paint and Ink manufacturing industries. They are backed by a technical service team supported by full laboratory facilities. This is just one area where we have anticipated our customer requirements for the future.

The laboratory facilities are fully equipped to provide advice, guide product formulations and samples, dispersion recommendations, colour matching, chemical and mechanical testing, and application properties.

In addition to this facility, Univar is working with leading suppliers such as Air Products, Cabot, Dow Chemicals, Dow Corning, Great Lakes, Millennium and Rhodia, who can provide an additional range of technical support facilities.

We offer a full range of both speciality and commodity products in the following key coatings sectors:

- Protective Coatings
- General Industrial
- Decorative
- Powder Coatings
- UV Technology
- Packaging Inks
- Flexographic Inks
- Special Effect Finishes
