

REACH Bulletin 23

October 2011

REACH Compliance

Dear Customer,

Univar supplies substances that require registration under REACH as well as materials that do not fall within the scope of REACH and substances that are exempted from REACH. Univar have created a [REACH Self Service database](#)¹ on our website, www.univareurope.com, where customers can access information on the REACH status of the Univar products they purchase. This is updated on an ongoing basis

Substances supplied by Univar that were subject to the first phase-in REACH registration deadline have been registered by our European suppliers or our non-European supplier's 'Only Representative'. All substances supplied by Univar that are subject to the second and third phase-in REACH registration deadlines (2013 & 2018 respectively) have been pre-registered.

Some Univar products contain substances included in The Candidate List of Substances of Very High Concern (SVHC). This list is updated periodically and is published on the ECHA website

Information on Candidate List Substances contained in chemical products supplied by Univar is included on the SDS in section 3. A list of Articles supplied by Univar Specialty Consumables that contain Candidate List Substances is available to customers of those products. The packaging materials used by Univar and our suppliers do not contain any Candidate List substances above the 0.1% information threshold.

For further information on the Candidate List, please see the ECHA website using the link http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp in your web browser.

Univar is aware of its legal obligations under REACH as they relate to products supplied and will continue to update and re-issue Safety Data Sheets (SDS) or Extended Safety Data Sheets (ESDS) to customers as required.

Univar continues to work alongside our manufacturers and importers to ensure continued compliance with REACH and availability of chemicals for our customers. For further information please contact us via your usual Univar contact.
