

Purchase conditions

Special conditions relating to products falling into the scope of REACH

All orders are placed on the clear and unambiguous understanding on the part of UNIVAR, and acknowledgement on the part of the Supplier, that the Supplier has ensured that those substances and preparations (chemical products) falling within scope of the new European Community Regulation (EC 1907/2006) on the Registration, Evaluation, Authorization and Restriction of Chemical substances (REACH), have been appropriately pre-registered and registered in accordance with the obligations arising from the REACH Regulation. UNIVAR must have received written assurances from the relevant Supplier that its products are, and will continue to be, in compliance with REACH.

UNIVAR reserves the right to collect or return, at UNIVAR'S choice, any substances and/or preparations that fail to meet these conditions and thus are prohibited from being marketed or sold in the EEA, or are withdrawn from the EEA market for non-compliance with REACH obligations. Supplier undertakes to reimburse UNIVAR for the original purchase price including all related costs of these substances and/or preparations. Supplier also undertakes to reimburse UNIVAR for the cost incurred by UNIVAR, of Supplier's substances and/or preparations that are collected and destroyed, or for the cost of collection and return, to the relevant Supplier, of such substances and/or preparations that do not comply with REACH obligations.
